ABSTRACT

The report is a compilation of 101 articles, reports, and speeches on outdoor recreation in the United States. Materials covered are written by personnel of the Economic Research Service (United States Department of Agriculture) and were published separately or in proceedings, journals, congressional documents, and other usually retrievable forms during 1962-69. In general, the material discusses outdoor recreation from the point of view of economics and covers a wide range of Economic Research Service resource-management concerns. (Author/LS)

ABSTRACT

This report is a compilation of articles, reports, and speeches on outdoor recreation in the United States. Materials covered are by personnel of the Economic Research Service, USDA, and were published separately or in proceedings, journals, congressional documents, and other usually retrievable forms during 1962-69. In general, the material discusses outdoor recreation from the point of view of economics and covers a wide range of ERS resource-management concerns.

Key Words: Outdoor recreation, resource management, social values, economic theory, income potentials, operator qualifications, rural development, vacation farms, forests, Nation, Appalachia, Northern Lake States.

PREFACE

Generally, all reports listed in this bibliography can be obtained in major agricultural libraries. ERS and unnumbered series publications are available from the Division of Information, Office of Management Services, U. S. Department of Agriculture, Washington, D.C. 20250. Publications in departmental series (such as Agricultural Economic Reports) may be obtained from the Publications Division, Office of Information, U. S. Department of Agriculture, Washington, D.C. 20250. Publications issued by State or public institutions should be ordered directly from the issuing organization.

This report supersedes ERS-346, Publications on Outdoor Recreation Research, 1962-66, by Staff of Economic Research Service.
